

PROTECT OUR HERITAGE PETITION

To the Honourable the President and Members of the Legislative Council in this present Parliament assembled -

The humble Petition of the undersigned residents of South Australia Respectfully sheweth: - That South Australia's precious natural and built heritage is being put at risk by laws, policies and practices that allow for destruction and degradation of heritage and environmental values in contravention of the public interest.

Your petitioners therefore pray that your Honourable House will:

1. Undertake an independent review of the operation of the Planning Development & Infrastructure Act to determine its impact on community rights, sustainability, heritage and environmental protection;
2. Undertake an independent review of the governance and operation of the State Planning Commission and the State Commission Assessment Panel;
3. Urge the Government to defer the further implementation of the Planning and Design Code until:
 - a. a genuine process of public participation has been undertaken and
 - b. a thorough and independent modelling and risk assessment process is undertaken.
4. Legislate to ban donations to political parties from developers similar to laws in Queensland and NSW.

And your petitioners, as in duty bound, will ever pray.
